

# TERRY LIFTS AFFINITY HOMELIFT

ONLY | LIFTS

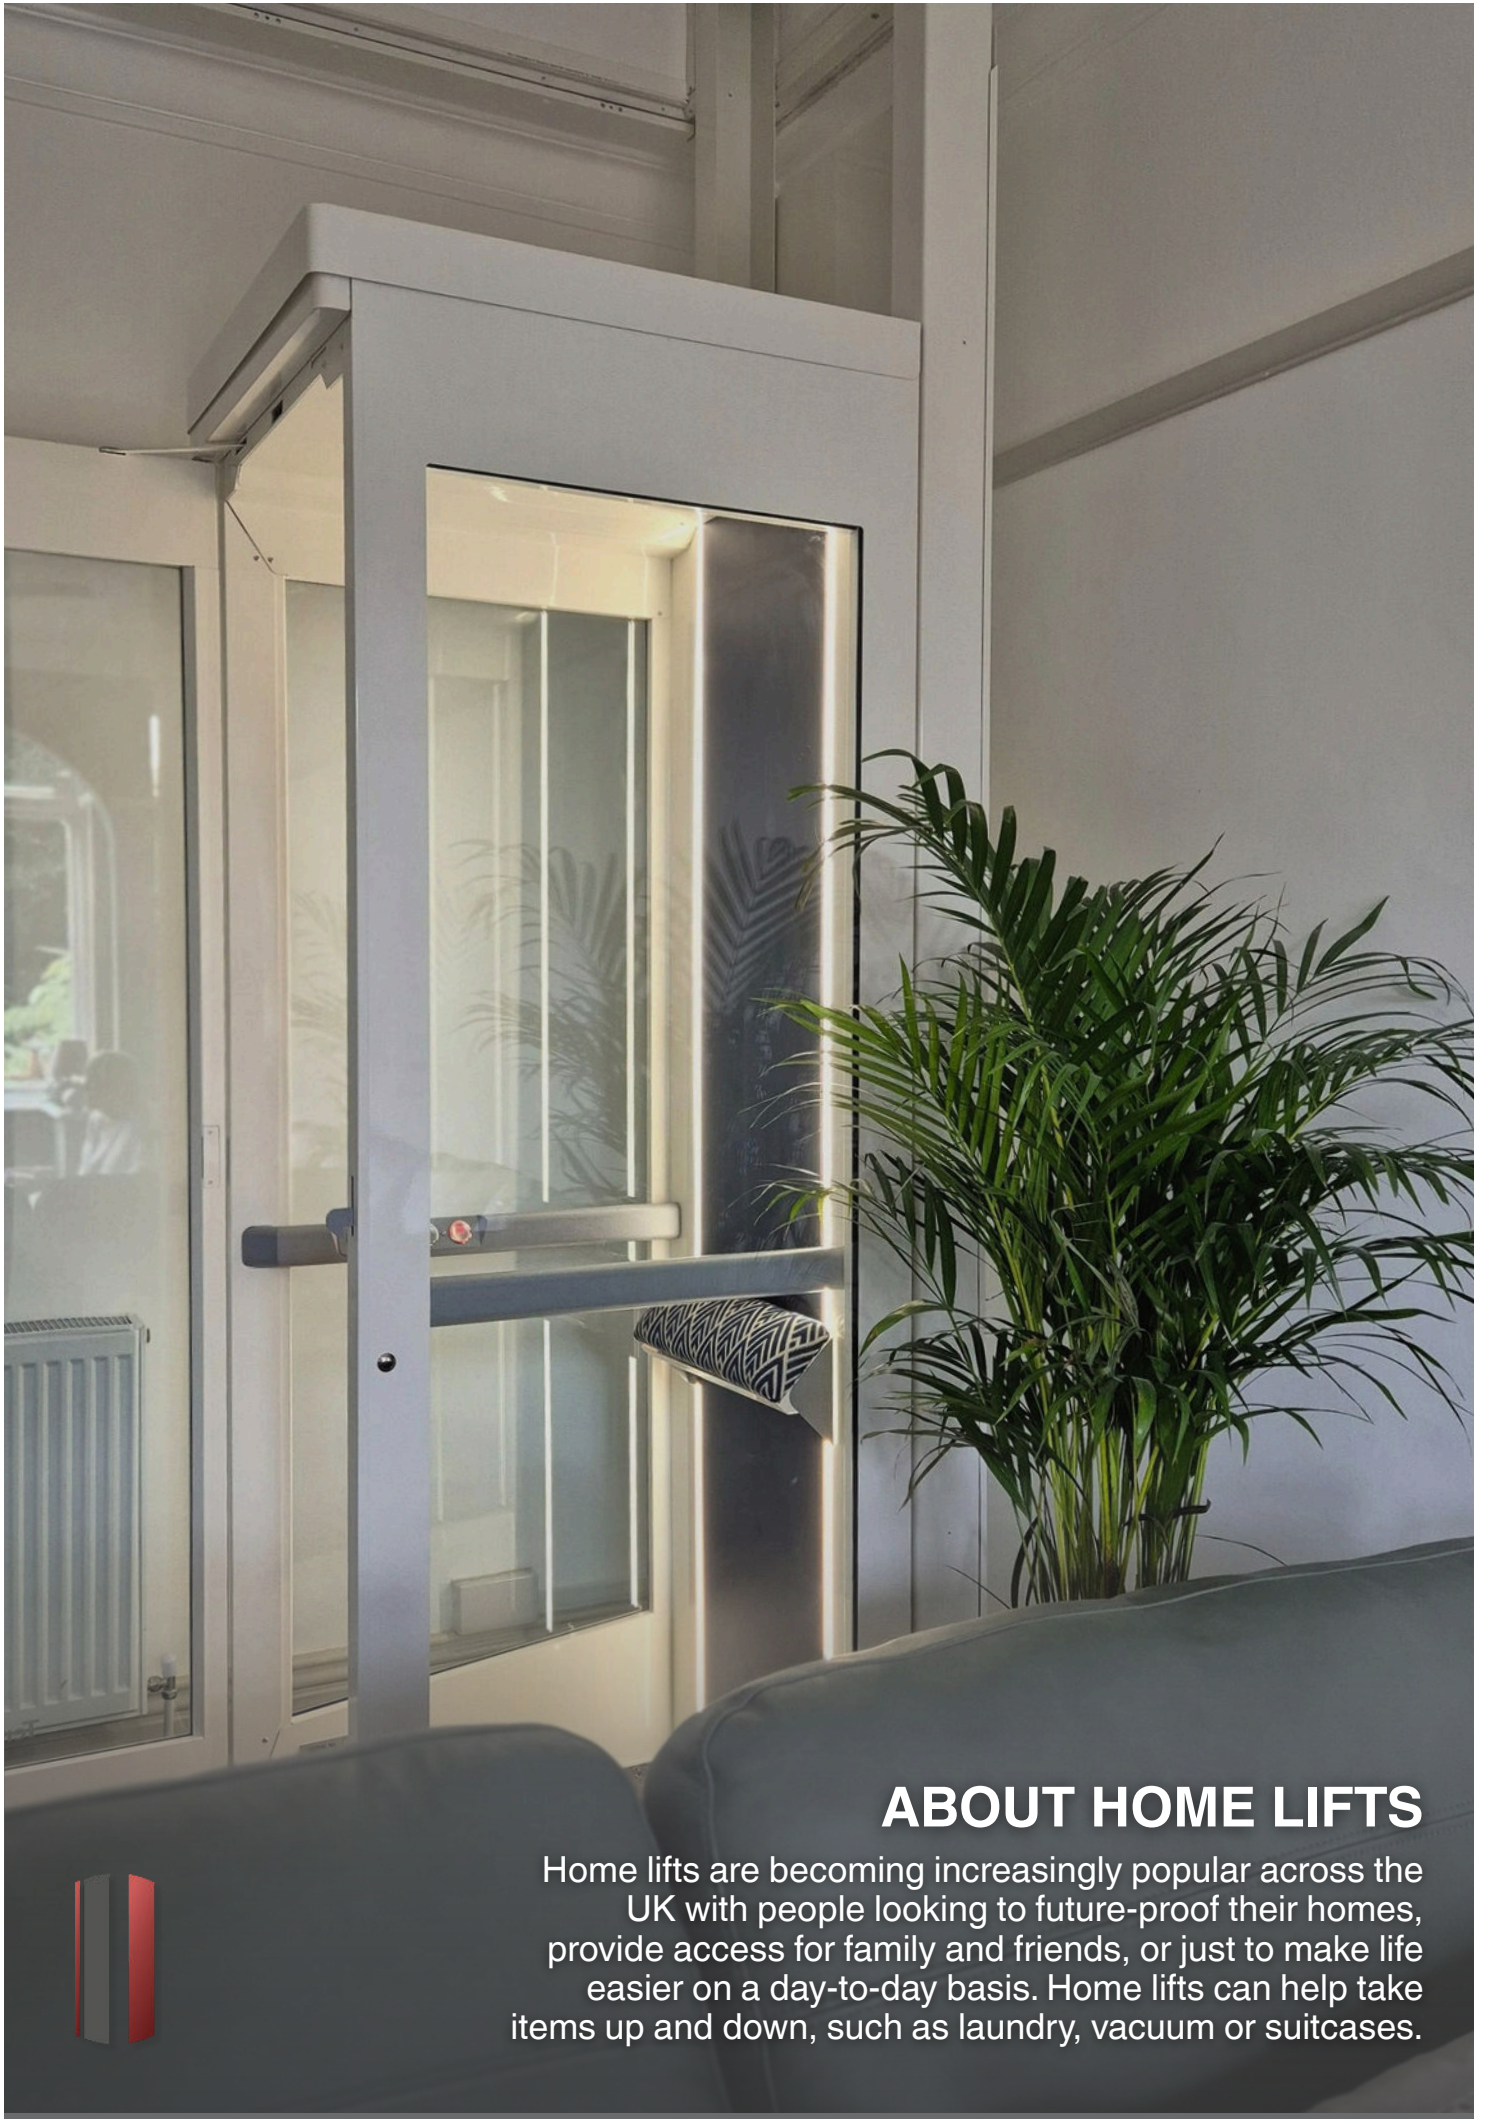

## OUR PROMISE TO YOU

With over 35 years history and industry knowledge, we provide an easy experience every time. Our purpose is to provide the right solution to our customers, helping people to live better. Our reliability and consistency are what make us a popular choice for home lift products, and we always look at ways to continuously improve to support our customers' needs.

## ABOUT HOME LIFTS

Home lifts are becoming increasingly popular across the UK with people looking to future-proof their homes, provide access for family and friends, or just to make life easier on a day-to-day basis. Home lifts can help take items up and down, such as laundry, vacuum or suitcases.

# ABOUT THE AFFINITY HOMELIFT

# Affinity

The Terry Lifts Affinity has been designed to combine practicality and style while using as little space as possible. Its compact footprint allows it to fit comfortably into even the smallest areas, making it an excellent choice for anyone looking for a mobility solution where space is limited.

The Affinity also stands out for its customisable design, created to blend seamlessly with your home rather than stand out. Both the colour and material of the lift and rear panel can be tailored to suit your interior, creating a finish that feels personal and refined. It also includes a comfortable perched seat, available in your choice of fabric and shade, adding an extra touch of style and comfort to every journey.

## BENEFITS

- Fits into compact spaces which is ideal for narrow alcoves or stairwells
- Acts as a reliable alternative to stair or chair lifts in homes where stairs are unsuitable
- Discreet guide rails reclaim floor space when the lift is parked
- Operates smoothly and quietly with minimal disturbance in household use
- Stylish and unobtrusive design that complements interiors
- Helps you maintain independence and full use of your home
- Good value and includes many premium features as standard
- Fully customisable (colours, fabrics, finishes) to match your décor
- Fast, low-disruption installation (minimal mess, minimal fuss)

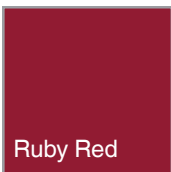

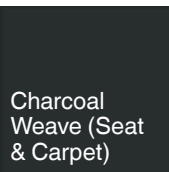

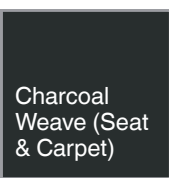

# OPTIONS & FEATURES

## STANDARD COLOURS

The Affinity Home Lift is available in a range of elegant, pre-selected colour combinations designed to complement modern interiors. Standard finishes include white with blue accents, grey with red accents, and black with silver accents. Each finish has been carefully selected to suit a wide range of interior styles, from contemporary homes to traditional settings.

*"Excellent service from start to finish. The home lift itself has transformed how my Mum can use her home. Only regret is not having a home lift installed earlier. Single point of contact with Gary was very much appreciated."*

**J. Nolan**
